### **CONFERENCE PROGRAMME**

# NORDIVA

Helsinki, Finland 23 – 25 September 2019

ONFERENCE

© Helsinki Marketing / Eetu Ahanen

FIWA, DANVA, Norsk Vann, **Samorka and Svenskt Vatten** invite all water professionals with an interest in wastewater, sewarage and climate change adaptation to join us at NORDIWA2019.

www.nordiwa.org #nordiwa2019

The leading Nordic event for water professionals – experts and practitioners, managers and operators: utility staff, city planners, researchers, engineers, advisors and others with an interest in wastewater management and climate change adaptation in the Nordic region.

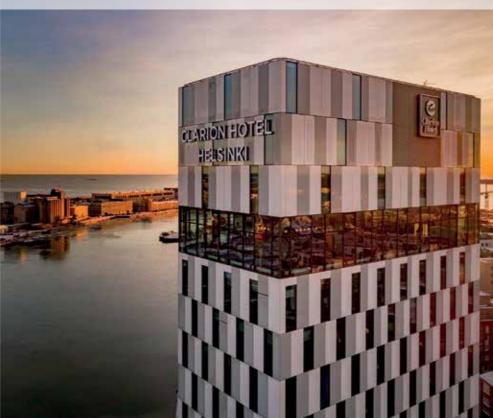

### Welcome to NORDIWA2019

We look forward to welcoming all of you to Helsinki for the Nordic Wastewater Conference 2019. The Nordic Wastewater Conference is now being arranged for the sixteenth time.

The conference has developed over time and its contents have become broader and more diverse. Wastewater treatment is discussed in the wider context of various new challenges. Climate change adaptation, stormwater management and sewer systems are extensively accommodated in the conference programme. We hope to maintain the conference as a venue for exchanging practical knowledge and latest information, where participants have the opportunity to network and learn from each other's experiences and practices.

On behalf of the Programme Committee Saijariina Toivikko Finnish Water Utilities Association (FIWA)

### **Main Topics**

NORDIWA presents a diverse conference with four main topics

2. Circular economy, resources recycling and recovery

3. Sewer systems – management, models and integrated approaches

4. Adapting to the changing climate and sustainable stormwater management solutions

- 2 -

Also cross-cutting topics are included to the programme.

### **Key Note Speakers**

**Future of Water** 

**Kala Vairavamoorthy,** IWA Executive Director, Professor, International Water Association

Status and Future of European Directives related to Water

**Veronica Manfredi,** Director, European Commission, Directorate General for Environment

How Climate Change will Impact Northern Europe?

**Hannele Korhonen,** Director of Climate Research Programme, Research Professor, Finnish Meteorological Institute

State of the Baltic Sea
Rüdiger Strempel, Executive Secretary, HELCOM

SDG's in the Water Utility Strategy

John Buur Christiansen, CEO, BIOFOS A/S

### **Young Water Professionals**

Young Water Professionals will meet and have the possibility to share ideas and network with each other on Monday September 23rd.

### **Conference Elements**

- Opening of the conference and plenary session with prominent keynote speakers, who illustrate future challenges and new development in the water sector.
- Conference sessions with normal presentations and short presentations highlight key findings of projects and results.
   Presenters of brief presentations will be available after the session to discuss more deeply with the audience.
- Workshops facilitate knowledge sharing and discussion between the presenters and the participants of the conference.

### **Excursions**

Five excursions are arranged in co-operation with Helsinki Region Environmental Services Authority HSY, Helen Ltd and City of Vantaa.

The excursions are organized on the last conference day, Wednesday 25th of September.

Arrival time is estimated \*

- 1. Viikinmäki wastewater treatment plant (2 buses)
- Tour A Nutrient recovery process RAVITA pilot
- Tour B Energy efficient solutions
- Departure from the conference venue at 12:50 and 12:55
- Arrival to the Helsinki Airport at 17:30
- Arrival to the conference venue at 17:20\*
- Lunch will be served in Viikinmäki before the visit

## 2. New wastewater treatment plant to Blominmäki

- Departure from the conference venue at 13:00
- Arrival to the Helsinki Airport at 16:30
- Arrival to the conference venue at 17:00\*
- You will have a packed lunch with you on this excursion

#### 3. Katri Vala Heat Pump Plant

- Departure from the conference venue at 13:20
- Arrival to the Helsinki Airport at 15:30
- Arrival to the conference venue at 16:00\*
- Lunch will be served at the conference venue before the excursion

# **4. Three stormwater management sites in Vantaa** (2 buses)

- Departures from the conference venue at 13:35 and 13:40
- Arrival to the Helsinki Airport at 15:40
- Arrival to the conference venue at 16:15\*
- Lunch will be served at the conference venue before the excursion

# 5. Mäntymäki sewage pumping station and Sanitation Safety Plan in HSY headquarters

- Departures from the conference venue at 13:15
- Arrival to the Helsinki Airport at 15:30
- Arrival to the conference venue at 16:05\*
- Lunch will be served at the conference venue before the excursion

Other drop-off point arrangements will be handled case-by-case as far as possible. Further information available at the registration desk.

09:00-10:	20 Removal of Micropollutants Chair: Susanne Tumlin Location: BYSA 2	09:00-10:20 Looking for sustainable sewage sludge utilization Chair: Saijariina Toivikko Location: BYSA 3	09:00-10:20 Sewer network management Chair: Mika Rontu Location: BYSA 1	09:00-10:20 <b>High resolution rainfall</b> Chair: Tero Niemi Location: SONCK					
09:00-09:	20 Advanced wastewater treatment – update from SEPA Maximilian Lüdtke, Swedish Environmental Protection Agency	09:00-09:20 Effects of long-term application of sewage sludge to arable land in southern Sweden Hans Bertil Wittgren, VA SYD	09:00-09:20 The impact of data availability on the estimated need for network renovations Tuija Laakso, Aalto University	09:00-09:20 Weather radar open source data processing chain and tools David Getreuer Jensen, EnviDan A/S					
09:20-09:	Discharge of antibiotic resistance genes from three WWTPs Carsten Ulrich Schwermer, Norwegian institute for water research	09:20-09:40 Risk assessment of harmful substances and pathogens in sewage sludge-based fertilizers applied on Finnish soils Niina Vieno, Law and Water Ltd	09:20-09:40 Smart platform for smart network management Kia Aksela, Helsinki Region Environmental Services Authority	09:20-09:40 Experiences of X-band radar in Skåne Nicholas South, VA SYD					
09:40-10:	Antibiotic resistance dissemination via wastewater treatment Antonina Kruglova, Aalto University	09:40-10:00 LCA-study on future sludge strategies Catharina Grundestam, IVL Swedish Environmental Institute	09:40-10:00 Using operational data to improve sewer asset management Morten Grum, WaterZerv	09:40-10:00 Improved on-line catchment simulation with new rain forecast tools Douglas Lumley, Gryaab AB					
10:00-10:	CWPharma tests in Kalundborg: Full Stream API Removal with Ozonation Preben Thisgaard, Kalundborg Utility	10:00-10:05 The occurrence of Legionella bacteria in circular economy products Liisa Maunuksela, Finnish Food Authority	10:00-10:20 Serito: Accelerating the right investments by connecting risk and economy.  Jens Højberg, Middelfart Wastewater A/S and Kouno						
10:05-10:	Removal of antibiotic resistant bacteria from hospital WW Michelle Lison Rebsdorf, Danish Technological Institute	10:05-10:10 Tool for promoting safe circular economy of sludge biosolids Katri Senilä, Finnish Environment Institute and University of Eastern Finland							
		10:10-10:15 Thermal Sludge Treatment Methods - Applicability in Finland Petri Nissinen, Pöyry Finland Oy							
		10:15-10:20 Pyrolysis in sludge treatment: plans for a pilot scale plant Aino Kainulainen, Helsinki Region Environmental Services Authority HSY							
10:20-10:	10:20-10:50 Coffee break and networking								
10:50-12:	Chair: Jan Stenersen Location: BYSA 2	10:50-12:10 Recycling and recovery of resources Workshop Chair: Peter Balslev Location: BYSA 3	10:50-12:10 Digitalization Workshop Chair: Jon Røstum Location: BYSA 1	10:50-12:10 Stormwater management and climate change adaptation Chair: Anna Norström Location: SONCK					
10:50-11:	A systematic concept for extension of Copenhagen WWTP's Jeanette Agertved Madsen, EnviDan A/S	10:50-10:55 Ammonium recovery from municipal reject water using various adsorbents Aubrey Beckinghausen, Mälardalen University	10:50-10:55 Fishing for values in the local data-lake in Bergen Kristine Akervold, Agency for Water and sewerage Works, Bergen Norway	10:50-11:10 The performance and role of green roofs during extreme event Tone Muthanna, Norwegian University of Science and Technology					
11:10-11:	30 A sustainable concept for the new Sjölunda WWTP Maria Jonstrup, VA SYD	10:55-11:00 From bio-sludge to bio-carbon using zero-energy hydrothermal carbonization Peter Axegård, C-Green Technology AB	10:55-11:00 Making water infrastructure smart with the Internet of Things (IoT) Kristine Akervold, Agency for Water and sewerage Works, Bergen Norway	11:10-11:30 Nature-based solutions to restore or maintain hydrologic connectivity Maria Dubovik, VTT Technical Research Centre of Finland Ltd.					
11:30-11:	50 Collaborative planning for sustainable wastewater treatment in Gothenburg 2030-2070 Maria Neth, Gryaab/Chalmers University of Technology	11:00-11:05 Biodegradable polymers as by-products from wastewater treatment Simon Bengtsson, Promiko AB	11:00-11:05 Machine Learning for Value Creation in the Water Sector Bolette Dybkjær Hansen, EnviDan A/S	11:30-11:50 Guide on how to invest in climate adaptation Jan Jeppesen, EnviDan A/S					
11:50-12:	Green field plant with ambitious goals, Peter Underlin, Hillerød Forsyning	11:05-11:10 Biological upgrading of biogas and production of Single Cell Proteins Joakim Faxå, EnviDan A/S	11:05-11:10 Autonomous cyber security solution for water supply and sewer network Erkki Viitala, Emtele Oy	11:50-11:55 How can blue-green/grey roof solutions contribute to runoff reductions in urban catchments? Vladimir Hamouz, Norwegian University of Science and Technology					
		11:10-11:15 Changes of water infrastructure in building stock Stefan Rettig and Alexander Wriege-Bechtold, Technical University of Berlin	11:10-12:10 Discussions between presenters and the audience	11:55-12:00 Towards natural water cycle in urban areas Ambika Khadka, Aalto University					
		11:15-11:20 Concentration of municipal wastewater by FO for recovery of nutrients Willy Røstum Thelin, SINTEF		12:00-12:05 Benefits from climate adaptation projects Helena Åström, Orbicon A / S					
		11:20-11:25 Nutrient recovery from wastewater in urban environment  — Case Hiedanranta in the city of Tampere Eeva-Liisa Viskari, Tampere University of Applied Sciences							
		11:25-12:10 Discussions between presenters and the audience							
	Obstantibe entre les la RVOA 4 0								
12:20-12:4	40 Closing of the conference - Location: BYSA 1-3								

-10-

### Conference Venue

The conference will be held at the Clarion Hotel Helsinki, located in the new Jätkäsaari (Busholmen) district. The address is Tyynenmerenkatu 2, 00220 Helsinki.

### Metro or tram to the center of Helsinki (and back)

Metro: Ruoholahti/Gräsviken station

**Tram:** Line 6T, 7 or 9 to Huutokonttori/Uppropskontoret

### From Helsinki Airport

Train (I or P train) to the Helsinki central railway station Finnair City Bus: Every ten or twenty minutes from the airport to the Helsinki central railway station

The schedules and details for metro, train, tram and buses can be found on HSL website.

### **Parking**

We recommend that you use the public transportation to arrive to the conference venue. If you will be arriving by car, parking is available at a local under-ground garage (Rokkiparkki, parking fees apply), located approximately 400m away from the hotel. Please follow this link to our Parking Instructions.

### **Social Program**

There will be a Helsinki City reception at the Helsinki City Hall on Monday 23rd of September 2019. The address of the City Hall is Pohjoisesplanadi 11-13, 00170 Helsinki. The reception will take place between 19:00 and 20:30. Bus transportation will be organized from the conference venue to the reception. Alternatively, you can choose to take a one-hour walk tour to the Helsinki City Hall with an official guide starting at 18:00 from the conference venue. After the reception, there are buses reserved to transport you back to the conference venue directly after the reception ends.

The conference dinner will be held at the conference venue, Clarion Hotel Helsinki on Tuesday 24th of September 2019 starting at 19:00.

During the conference, lunch will be served each day in the 1st and 2nd floor.

### **Hotels and Tourism**

Information about hotel booking and being a tourist in Helsinki: https://www.myhelsinki.fi/en

Please register online <a href="https://www.nordiwa.org/">https://www.nordiwa.org/</a> Registration to the conference is open until 16th of September.

### **CONFERENCE PROGRAMME**

Helsinki, Finland 23 – 25 September 2019

© Helsinki Marketing / Yiping Feng and Ling Ouyang

### **Programme Committee**

Lise Hughes, Aarhus Vand A/S, (IWA)

Helle Kayerød, DANVA

Marina Graan, Helsinki Region Environmental Services

Authority, (IWA)

Mika Rontu, FIWA

Saijariina Toivikko, FIWA

Sigurjón Norberg Kjærnested, Samorka

Fjóla Jóhannesdóttir, Veitur Utilities (IWA)

Magnar Sekse, Bergen (IWA)

Arne Haarr, Norsk Vann

Anders Finnson, Svenskt Vatten

Anna Norström, Svenskt Vatten (IWA)

Pille Aarma, Estonian Waterworks Association
